The present book "Ethnobotany and Medicinal Plants of India and Nepal" is publication in the series on Indian Medicinal Plants. The contributors of the papers in this book are well known Indian Ethnobotanists who have furnished authenticated data for further scientific and clinical tests. The information about the medicinal plants spread over 500 pages, covers various tribal communities from north to south and east to west and different ailments cured in nature's dispensary. Beautiful photographs of some medicinal plants have also been provided by some contributors.

The information furnished in the book will be useful for controlling biopiracy, backing conservation strategies and facilitate better understanding of phytotherapy research.
