

[K.L. Shrivastava & P.K. Srivastava](#)

ISBN	: 9788172339296	Book Format	: Book
E-ISBN	: 9789386102348	Binding	: Hard Bound
Language	: English	Edition	: 1
Imprint	: Scientific Publishers	© Year	: 2015
Pages	: 670	Trim Size	:
Weight	: 2145 Gms		

Print Book : ~~₹6,650.00~~ ₹5,985.00 **10%Off**

Individual E Book : ₹8,645.00

Institutional E Book : **Price available on request**

Blurb

This book incorporate papers describing new and exciting results and timely reviews integrating an immense amount of knowledge in the field. Frontiers of Earth Science, the inter-and intra-disciplinary volume sets out to imbibe sixty selectively invited research papers from distinguished earth scientists. The volume incorporate sections on Mineral deposits, Climate Change and Environment, Remote Sensing, Stratigraphy and Palaeobiology, Petrology, Groundwater and Seismology and Tectonics. The book is an everlasting and invaluable documents and reference for academia, industry and planners specialized in the field of the Earth Science and for those who need updated information of current research. The volume will also be equally significant for advance level students and research scholars throughout the world.

Table of Contents

Section - I : MINERAL DEPOSITS

1. A New Type of Uranium Deposit Prospects in The Indian Desert;
2. Kerguelen Plume Induced Mantle Derived Early Cretaceous Ultramafic-Alkaline-Carbonatite Complexes from the Shillong Plateau, North-Eastern India: Evidence for Multiple Magmatic Intrusions;
3. Adoption of United Nations Framework Classification of Mineral Resources in India: Current Status, Constraints and the Way Forward;
4. Malanjkhand Polymetallic Copper Sulphide Porphyry Deposit, Madhya Pradesh, India: Review and Future Prospects;
5. Prospects of Mineral Prospecting in India;
6. The Malani Supercontinent;
7. Economic Deposition of Emerald Near village Kaliguman, Tehsil Amet, District Rajsamand of Rajasthan, India;
8. Geophysical Investigations of Panihar Iron Ore Mine in Gwalior District of Madhya Pradesh, India: A Case Study;
9. BIF-hosted Iron Ores of the Paleo-Mesoarchean Iron Ore Group, Singhbhum Craton: An Insight into the Recent Advances in the Understanding of Iron Ore Genesis;
10. Issues Pertaining to Sand Mining In India;
11. Prospect and Constrain of Small Scale Mines of Rajasthan, India;
12. Heat Capacity at Constant Volume of NaCl Crystal Under High Pressure;
13. Phosphorous Problem in the Iron Ores with Special Reference to Donimalai Iron Ore Deposits of Bellary District, Karnataka State, India;
14. An Overview on the Geological Attributes of the Barmer Basin, Western Rajasthan, India: Implication for Hydrocarbon Prospects and Economic significance;
15. Thermo-elastic Properties of (Mg_{1-x}Fe_x) SiO₃ Perovskite under High Pressure;
16. Hydrocarbon Generation Potential of Selected Borehole Coal and Shale Samples from Jharia Basin, Jharkhand

Section - II: CLIMATE CHANGE AND ENVIRONMENT

17. Geological Challenges in Permanent Disposal of Radioactive Wastes in India: An overview;
18. Himalayan Speleothems as Proxy for the Past Climate Change and Paleomonsoon;
19. Characteristic Study of Solar Activity During Solar Cycle 23;
20. Indigenous Knowledge for Weather Forecasting in Dhule District of Maharashtra (India);
21. Hydropower Development in the Himalaya : Constraints and Challenges, with Emphasis on Geological Investigations;
22. Change in Land Use Land Cover Dynamics in Indira Gandhi Canal Command Area - A Case Study of Anupgarh and Vijayanagar tehsils;
23. Dynamics of Human Rights and The Environment;
24. Fluoride Contamination in Groundwater of Nagaur District, Rajasthan and Health Hazards: A Review; 25. Hydro-geochemical Study of High Fluoride in Ground Water with Help of GIS Application: A Case Study of Kishangarh, District Ajmer, Rajasthan;

26. Study of Irrigation Water Quality with Reference to Coastal Andhra Pradesh, India;
27. Village and Social Transformation

Section- III: REMOTE SENSING

28. Early Warning of Desertification;
29. Geomorphometric Analysis Using GIS and Remote Sensing Techniques in Some Part of Wardha River Basin, Maharashtra, India;
30. Snowmelt Runoff Modeling and its Implications in Hydropower Potential Assessment in Dhauliganga Catchment of Pithoragarh district, Uttarakhand;
31. Geological Investigation and Mapping of Basaltic Terrain of Shirpur Taluka, Dhule district, Maharashtra using High Resolution Cartosat-I Data;
32. Application of Remote Sensing Technology for Assessment of Landuse and Land Cover Change Analysis for Sustainable Development : A Case Study of Sandur Taluk of Bellary District of Karnataka

Section - IV: STRATIGRAPHY AND PALAEOBIOLOGY

33. An overview on the discordant Radiochronology and Biochronology, Lower Vindhayn Supergroup (LVS), Central India;
34. New report of Arumberia banksi (Ediacaran affinity) Mat Structures from the Girbhakar Sandstone of Marwar Supergroup, Bhopalgarh area, Jodhpur, Western Rajasthan, India;
35. Lithostratigraphy, Deformation History and Tectonic Framework of Imbricate Zones in The Frontal Part of Kashmir Nappe, Doda Area of Kashmir;
36. Speleothems from Krem Mawsmai, Meghalaya, India: Some Biogenic Evidences;
37. Thalassinoides and its Associated Trace Fossils from Girbhakar Sandstone of Marwar Supergroup, Bhopalgarh Area, Jodhpur, Rajasthan;
38. Basin Analysis of Neo- Proterozoic Sandstone Around Bidasar (Churu), Rajasthan, India;
39. Introducing Microbiology in the Indian Earth System Science Curriculum: A Game Changing Decision

Section - V: PETROLOGY

40. Homogenization Experimental Studies of Alkali Feldspars from the Northwestern Himalayan Granites, India;
41. Regional metamorphism and zonal division of Darjeeling-Mangpu Region, Eastern Himalaya, West Bengal;
42. P-T paths from Gibbs Method and its Applications;
43. Modern Trends and Challenges of Classification and Genesis of Granitic Rocks;
44. Petrographic Make up in Deciphering Depositional Environment of Damodar Valley Coal Basins

Section - VI: GROUNDWATER

45. Deciphering Groundwater Quality for Irrigation and Domestic Purposes – A GIS based case study of Suri I and II Blocks, Birbhum District, West Bengal, India;
46. Groundwater Resource Development and Management in Suketi River Basin, Himachal Himalaya, India;
47. Journey of the Jodhpur City Since its Foundation through Water Impounding Structures;
48. Quality of Groundwater and F- contamination in the Granitoids of Chhindwara District (M.P.), Central India;
49. Assessment of Wetland Resources for Sustainable Development of Belgaum District of Karnataka: Using Multispectral Satellite Data;
50. Quantitative and Spatial Assessment of Fluvial Erosion in Relation to Morphometric Properties:A Case Study of Parvati River Basin;
51. Vertical Electrical Sounding Technique to Delineate Aquifer Zones in The Hard Rock Terrain Around Jowai Town, West Jaintia Hills District, Meghalaya;
52. Geomorphological Evolution of the Rushikulya Basin

Section - VII : SEISMOLOGY AND TECTONICS

53. The Seismic Scenario of Mumbai;
54. Crustal Velocity Structure of the Dharwar Craton by Seismic Refraction Studies and its Tectonic Implications;
55. Moon Forms When Axis Tilts;
56. Formation of Mother Earth;
57. Radon and Active Tectonics in the Shillong Area;
58. Tunnelling in the Soft Rocks of Manipur, India: A Case Study;
59. Evaluation of Seismic Hazard Potential Along Active Naga-Disang Thrust Belt in NE India;
60. Geodynamic Evolution of Himalaya
