Individual E Book : **₹1,885.00**

Institutional E Book : **Price available on request**

Blurb

The dynamics of farm mechanization in pulses is a challenging issue to address. This text emphasizes the necessary keys in building and operating farm mechanization in pulses to complete the task by research, sensitization and policy decision. The authors believe that the book will help in implementation of farm mechanization in pulses which may be achieved with sensitization of farmers for adoption of recommendations, scientists to work on wide spectrum of researchable issues and policy makers to develop farmers friendly strong policy. The essence of the book will help in doubling the farmers income, reducing import of pulses and vanishing mal-nutrition from the country.

Foreword

Dr. Pradeep Kumar Bisen

Vice Chancellor

Jawaharlal Nehru Krishi Vishwa Vidyalaya

Krishi Nagar, Adhartal, Jabalpur 482 004 (M.P.)

Table of Contents

1. Scenario of pulse production in India -Ummad Singh, S. Bhat, P. Sharma, C.S. Praharaj and Rajesh Kumar
2. Scenario of farm mechanization for production of pulses - C. R. Mehta and R. K. Tiwari
3. Precision farming for production of pulses - P. S. Tiwari
4. Farm mechanization for enhancing acreage of pulses in rice based cropping system - S.K. Rao and G.K. Koutu
5. Efficient machineries for harvesting and threshing pulse crops - Baldev Dogra and Neeraj Kumar Singh
6. Conservation agriculture based sustainable intensification practices for increasing pulse productivity in India - Raj Kumar Jat, ML Jat, HS Sidhu, Ravi Gopal Singh, Amit Jha and Raj Gupta
7. Role of mechanization on pulse crops in Chhattisgarh - A.K. Dave And J.K. Joshi
8. Farm mechanization for production of pulses under rainfed situation - Thakare S H, V. P. Khambalkar and S. T. Patil
9. Tailoring new varieties of pulse crops for machine harvesting - SK Chaturvedi, NP Singh, Yogesh Kumar and PM Gaur
10. Global scenario of chickpea improvement for suitability to mechanical harvesting - Pooran M Gaur
11. Zero tillage options for establishment of pulses in rice-based cropping system - J.S. Mishra and Rakesh Kumar
12. Resource conservation technologies for maximization of pulse production - Atul Kumar Shrivastava and A.K. Jha
13. Weed management in pulses under mechanized farming - P.K. Singh, R.P. Dubey, Chethan C.R. and Dibakar Ghosh
14. Farm mechanization for enhancing production of pulses in Vertisols - S.K. Sharma
15. Impact of precise land leveling, establish techniques on diversification of cereal with pulse based cropping systems on yields and soil physico-chemical properties in central India - Y. P. Singh and Raj Gupta

16. Mechanical harvesting of chickpea: agronomic interventions - Ummed Singh, P.M. Gaur , Guriqbal Singh and S.K. Chaturvedi
17. Water productivity and energy efficiency increased by mechanization in pulse crops - Amit Kumar Jha and Atul Kumar Shrivastava
18. Scaling soil fertility and productivity of pulses under rice fallows in Eastern India - Praharaj C.S. and Ummed Singh
19. Yantradoot village scheme: a successful intervention for farm mechanization - Rajiv Choudhary, Anil Porwal, V. V. Mourya and R. K Rana
20. Proceedings of the workshop
