Agricultural extension is an important and specialized branch of agriculture which is associated with different aspects of technology transfer to the farmers. This book is a comprehensive and will meet the growing need of agricultural extension of graduate and post graduate and post graduate students at university level of agriculture. Each chapter of this book contains very short types of descriptive questions. Recent precise information and development in the field of agriculture extension have been incorporated in the book. For the overall benefit of the student in the discipline of agriculture we have made this book exclusively in such a way that it hands out not only solutions but also detailed explanations. Though these detailed and thorough explanation, student can learn the concepts which will enhance their thinking and learning ability. Thus this book may be useful not only to students but also teachers, researchers, extension workers and development officers for reference and easy answering of many complicated questions of agricultural extension. This book has given due importance and whole syllabus is covered as per ICAR/SAUs syllabus and guidelines of agricultural extension.

Fundamentals of Agricultural extension covers the course contents of competitive examinations like IAS, IFS, PCS, ARS, Banking Service; B.Sc./M.Sc./Ph.D. (Ag) admission for states and national level of different competitions in agriculture. The entire book is prepared in most simple, clear talking language, comprehensive and short descriptive types of questions so that the concepts could be easily understood by the readers in short times.
