Blurb

This book is intended to assist those who feel that they have a gap in their knowledge, either technologists who need to understand economics or economists who have become involved in seed enterprises. The publication is a useful contribution to develop seed supply systems, and specifically to assist them in the difficult process of putting their activities on a more secure financial basis and to provide the services which farmers need.

Table of Contents

Part - I. Overview of the Seed System - 1. Introduction, 2. Development of the seed industry worldwide, Part - II. Technical and Institutional aspects - 3. Technical aspects of seed production, 4.
