World markets are demanding the best of the quality with immense consumer appeal for the marketable goods along with cheap and competitive rates. In the agricultural sphere India possesses its own unique potentials and qualities of experience, crop gene pool whether in the medicinal, aromatic, culinary herbs, cereal, oil seed, vegetables, fruits. Vedas are the oldest manuscripts and Ayurveda is the research outcome of the age old traditions of medicinal therapies for the living beings. Greek knowledge brought the entry of Unani in the medicinal world. These two systems of medicine supplied products for the human welfare in the science of medicine, aromatherapy, perfumery, cosmetology. Herbal medicine is now actively being deployed for the development of Tourism Industry through Health Resorts providing Aromatherapy, Herbal therapies etc.

India with its traditional strength and Government dedicatedly involved in the upliftment of the villages and village economy through active participation of one and all have put in their energies for the manufacture and production of value added products and raising of new plantations and devising ways and means for the new generation in the involvement of business oriented plans. The Project report presented, is a directed effort in the direction for guiding the youth, entrepreneurs, businessmen to know better through different Project reports brought in this on crop culture of fruit and Vegetable, Cut flowers, Herbal / Medicinal and Aromatic crops, Post Harvest Technology application for increased shelf life of the products, Food Processing, Utilization of Agro-wastes for raising soil fertility. It covers Herbal, Medicinal, Aromatic, culinary plant values of crops, place of processed foods in Indian economy, raising of commercial Nurseries for.

Mother, Fruit, Forest and ornamental plants, high value vegetable crop culture, production of bio-manures, what post harvest technology is and how to start, Cut flower/floriculture are the basic needs of the farmer , entrepreneur of today. Production of essential oils from the aromatic herbs is a field worth deploying towards product development and its demand in the pharmaceutical, cosmetic industry for herbal shampoos mosquito repellants, solid fragrances, herbal waters of Rose, Mint, herbal cosmetics

Table of Contents

I What is a Business

II Project Financing Agencies and Finance Schemes

III Plant and Machinery Sourcing

IV Village Projects

- Herb Drying

- Potpourrie

- Herbal Tea

- Bee-keeping

- Marketability of Village Produce

- Other Village Projects

V Crop Culture

- Asparagus
- Baby Corn
- Bamboo
- Mushroom

VI Aromatic and Medicinal Crops

- Aloe vera
- Ashwagandha
- Ginger (Ginger products)
- Lemon Grass
- Lavender
- Mints
- Sweet Basil

VII Nursery and Plant Propagation

- Mother Plant Nursery
- Fruit Plant Nursery
- Forest Plant Nursery
- Ornamental Plant Nursery
- High Density Mulberry Plantation

VIII Processed Foods

- Pickles and Processed Foods
- Tomato Products
- Juices (Orange | Lime, Clarified and Sugar Cane).
- Vegetable Canning
- Dehydration

IX Vinegar

X Biomanure and Biopesticides

XI Post Harvest Management

- Cold Chain, Cold Store
- Pack House Line for Pineapples

XII Department of Science and Technology

XIII Pulse Milling

XIV Cut Flower Green House Culture
