Individual E Book : **₹3,185.00**

Institutional E Book : **Price available on request**

Blurb

The present book Biodiversity, Traditional Knowledge and Intellectual Property Rights elaborates principles of biodiversity right from definitions and concepts to strategies for conservation of biodiversity. It also explains the roles and functions of international organizations like CBD in biodiversity conservation. The unique feature of this book is it connects biodiversity, traditional knowledge and intellectual property rights. Different aspects of biodiversity related traditional knowledge and international initiatives undertaken to protect the rights of traditional knowledge holders are discussed.

Foreword

Dr G.V. Subrahmanyam

Ex-Adviser

Ministry of Environment, Forest & Climate Change

Government of India, New Delhi

Table of Contents

Chapter 1 Biodiversity - Definitions and Concepts

1.1 Definitions

1.2 Levels of biodiversity

1.2.1. Species diversity

1.2.2. Genetic diversity

1.2.3. Ecological diversity

Chapter 2 Accumulation of Biodiversity

2.1 Evolution of life

2.2 Speciation vs Extinctions

2.2.1. Speciation

2.2.2. Extinctions

2.3 Present state of global biodiversity

Chapter 3 Distribution of Biodiversity

3.1 Factors affecting global distribution of biodiversity

3.2 Patterns of global distribution of biodiversity

3.3 Reasons for variation in the distribution of biodiversity

3.4 Endemism

3.4.1. Definition

3.4.2. Types of endemism

3.4.3. Reasons for endemism

3.4.4. Causes for loss of endemism

3.5 Biodiversity hotspots

3.5.1. Definition

3.5.2. Criteria for determining hotspots

3.5.3. Number of hotspots

3.5.4. Hottest hotspots

3.5.5. Distribution of hotspots

3.5.6. Hotspots - biodiversity conservation

Chapter 4 Value and Benefits of Biodiversity

4.1 Value assessments of biodiversity

4.1.1. Use value

4.1.2. Non-use value

4.2 Economic valuation of biodiversity

4.2.1. Direct valuation approaches

4.2.2. Revealed preference approaches

4.2.3. Stated preference approaches

4.3 Benefits of biodiversity

4.3.1. Provisioning services

4.3.2. Regulating services

4.3.3. Cultural services

4.3.4. Supporting services

Chapter 5 Threats and Loss of Biodiversity

5.1 Dimensions of biodiversity loss

5.1.1. Loss of genetic diversity

5.1.2. Loss of species diversity

5.1.3. Loss of ecological diversity

5.2 Magnitude of biodiversity loss

5.2.1. Species- area estimates

5.2.2. Estimations from empirical data

5.2.3. Estimations from Red List of threatened species

5.2.4. Estimating co-extinctions

5.2.5. Models of impact of climate change

5.3 Trends in loss of biodiversity

5.4 Threats to biodiversity

5.4.1. Root causes of threats to biodiversity

5.4.2. Direct threats to biodiversity

Chapter 6 Biodiversity Monitoring, Assessment and Inventory

6.1 Monitoring of biodiversity

6.1.1. The concept of monitoring

6.1.2. Characteristics of a good indicator

6.1.3. Use of indicators

6.1.4. Biodiversity indicator partnership

6.1.5. Biodiversity indicators

6.2 Assessment of biodiversity

6.2.1. Genetic diversity

6.2.2. Population diversity

6.2.3. Species diversity

6.2.4. Ecosystem diversity

6.3 Inventorying of biodiversity

6.3.1. Single taxon inventories

6.3.2. Multitaxon inventories

Chapter 7 Biodiversity Conservation

Chapter 7 Biodiversity - Conservation

7.1 Principles of conservation

7.2 Conservation methods

7.2.1. *In situ* conservation

7.2.2. *Ex situ* conservation

7.3 Conservation products

Chapter 8 Biodiversity - International Organizations

8.1 United Nations Environment Programme

8.2 Convention on Biological Diversity

8.2.1. Conference of Parties

8.2.2. Subsidiary body on scientific, technical and technological advice

8.2.3. The Secretariat

8.2.4. Convention protocols

8.2.5. Working group on review of implementation of the convention

8.2.6. Working group on Article 8(j)

8.2.7. AdHoc working group on protected areas

8.2.8. Global biodiversity outlook

8.2.9. Clearing house mechanism

8.2.10. National focal point

8.2.11. National biodiversity strategy

8.2.12. Strategic plan for 2011-2020 including Aichi biodiversity targets

8.3 International Union for Conservation of Nature

8.3.1. IUCN council

8.3.2. Expert commissions

8.3.3. IUCN programme

8.3.4. IUCN solutions

8.3.5. IUCN Red List

8.3.6. IUCN Red List categories of species

8.3.7. Criteria to differentiate threatened taxa

8.3.8. Number of threatened species

8.3.9. Merits and demerits of IUCN Red List

8.4 World Wildlife Fund

8.5 Other international organizations

Chapter 9 Biodiversity - Indian Scenario

9.1 Biogeographical regions

9.2 Forest biodiversity

9.3 Biodiversity hotspots

9.4 Status of biodiversity

9.4.1. Faunal diversity

9.4.2. Floral diversity

9.4.3. Marine diversity

9.4.4. Domesticated diversity

9.5 Threats to biodiversity

9.6 Loss of biodiversity

9.7 Importance and benefits of biodiversity

9.8 Inventories and assessment of biodiversity

9.9 Biodiversity conservation

9.9.1. *In situ* conservation

9.9.2. *Ex situ* conservation

9.10 Biodiversity related international agreements

9.11 National legislations, policies and plans relevant to biodiversity

- 9.11.1. Biological Diversity Act - 2002
- 9.11.2. National Biodiversity Authority
- 9.11.3. National Biodiversity Action Plan
- 9.11.4. National Biodiversity Targets

Chapter 10 Biodiversity - Traditional Knowledge

- 10.1 Terminology
- 10.2 Definitions
- 10.3 Characteristics of traditional knowledge
- 10.4 Aspects of traditional knowledge
- 10.5 Value and role of traditional knowledge
- 10.6 Threats to traditional knowledge
 - 10.6.1. Loss of biodiversity and traditional life styles
 - 10.6.2. Biopiracy
 - 10.6.3. Protection of plant varieties
 - 10.6.4. Patenting of genetically modified organisms
 - 10.6.5. Patenting of traditional medicine
- 10.7 Concerns of traditional knowledge
- 10.8 Why to protect traditional knowledge?
- 10.9 Issues to be addressed
 - 10.9.1. Involvement indigenous and local communities
 - 10.9.2. Disclosure of origin and prior informed consent
 - 10.9.3. Access and benefit sharing
- 10.10 International initiatives to protect traditional knowledge

Chapter 11 Biodiversity - Traditional Knowledge - Intellectual Property Rights

- 11.1 An overview of intellectual property rights
 - 11.1.1. Industrial property
 - 11.1.2. Artistic and literary property
 - 11.1.3. Sui generis system
 - 11.1.4. Criteria for patenting inventions
- 11.2 TRIPs and patent laws
 - 11.2.1. India's stand vis-a-vis TRIPs agreement
 - 11.2.2. CBD and TRIPs
- 11.3 Debate on extending patent laws to traditional knowledge
- 11.4 Systems of traditional knowledge protection
 - 11.4.1. Positive protection
 - 11.4.2. Defensive protection

Chapter 12 Protection of Traditional Knowledge - Indian Initiatives

- 12.1 Threats to traditional knowledge
- 12.2 Indian legislations to protect traditional knowledge
 - 12.2.1. Protection of Plant Varieties and Farmers Rights Act, 2001
 - 12.2.2. Biological Diversity Act, 2002
 - 12.2.3. The Patent (Amendment) Act, 2005
- 12.3 Non-legislative measures to protect traditional knowledge
 - 12.3.1. Traditional Knowledge Digital Library
 - 12.3.2. National Innovation Foundation
