Blurb

In recent years interest in medicinal plants has increased considerably world wide. It is felt that there is no single book available which contains all aspects of medicinal plant as Ayurvedic, botanical, ecological, chemical and medicinal information regarding the same plant species. This book presents more than five hundred colour photographs of medicinal plants available in the Indian sub-continent. The book also throws light on more than five thousand tested and applied clinical formulas, which will further add value to the knowledge of the readers. Hence, by bringing out literature pertaining to medicinal plants covering all aspects together, in this book, an attempt is made to cater to the varied needs of readers.
