

Seed Technology

[Dharendra Khare & M.S. Bhale](#)

ISBN	: 9789388043588	Book Format	: Book
Language	: English	Binding	: Paper Back
Imprint	: Scientific Publishers	Edition	: 1
Pages	: 396	© Year	: 2024
Weight	: 682 Gms	Trim Size	: 7.25 x 9.50 x 0.75
Book Type	: Text Book <input type="checkbox"/>		

Print Book : ₹575.00

Blurb

It is the succinct edition of the book entitled Seed Technology. The book was well accepted by students, teachers and personnel engaged in seed research, seed production, seed certification, seed testing, seed industry and seed commerce. With 31 years of active experience in the field of seed, the book is blended with information on seed technology in how-to-do-it manner and answer of how, when, why and where to explain the science of seed. The succinct edition also provides integrated information for the courses offered by traditional universities in the background of agriculture in condensed form. The book includes line diagrams and flow charts to make it practical oriented.

Features

Features

- Basics of seed and variety
- Seed production system
- Maintenance breeding
- Production of hybrids, seedless varieties, tubers, TPS and synthetic seed
- Post harvest seed management
- Seed storage
- Certification of seed production programme at field level
- Testing of seed in laboratory
- Verification of genetic purity including molecular approaches
- Seed and seedling vigour testing
- Seed health and its certification
- Value addition

Table of Contents

1. Seed Morphology
2. Variety
3. Identification, Release and Notification of Variety
4. Planting Value of Seed
5. Seed Production and Certification System in India
6. Maintenance Breeding
7. Breeder Seed Production
8. Production of Foundation and Certified Seed
9. Agronomical Principles and Considerations of Seed Production
10. Seed Deterioration
11. Deterioration of Variety
12. Field Inspection

12. Field Inspection
13. Maintenance of Genetic Purity
14. Management of Objectionable Weeds
15. Seed Treatment and Management of Seedborne Pathogens
16. Seed Drying
17. Seed Processing Plant
18. Seed Processing
19. Seed Lot
20. Sampling
21. Physical Purity Analysis by Number
22. Physical Purity Analysis by Weight
23. Germination
24. Biochemical Test for Viability
25. Moisture Content
26. Genetic Purity
27. Biochemical Tests for Verification of Genetic Purity
28. Detection of Genetically Modified Crops
29. Seed Health
30. Identification of Objectionable Seed Borne Diseases
31. Identification of Objectionable Insect Pest
32. Identification of Objectionable Parasitic Weeds
33. Identification of Objectionable Nematodes
34. Seed Quality Enhancement Techniques
35. Seed Dormancy and its Management
36. Hybrid Seed Production
37. Seed Production of Seedless Varieties
38. Potato Micro Tubers
39. True Potato Seeds and its Production
40. Production of Synthetic Seed
41. Seed Packaging and Handling
42. Storage of Seed
43. Insect Infestation and its Control
44. Rights in Protection of Plant Varieties and Farmers' Rights Act
45. NDUS Test
46. VCU Test
47. Procedure and Policy for Import and Export of Seed
48. Establishment of Seed Testing Laboratory- Tentative Plan
