Practical Manual part 3 has been written for the syllabi adopted by various Indian universities including Rajasthan state. It covers Chordates and exercises on Ethology and Ecology. Type study of Chordate animals have been described in a unique style covering salient features on classification, Common name, Habit and habitat, Distribution, Characters of identification, Special characters, Biological importance and Economic importance. Infact, the spotting marks are based on such features and books generally available does not contain all such information at one place. Behavioural exercises and analysis of water have been described in a style generally preferred by the students. Under the section osteology, each bone has been described on its Location, Articulation and Characters. The figures are simple and easy to draw.
