Weight	: .400 Gms		
Book Type	: Text Book <input type="checkbox"/>		

Print Book : ₹1,650.00

Blurb

This manual is designed to be used to prepare potential pesticide licensees for the Agriculture-Herbicide examination although it may also be helpful to persons preparing for the Pesticide Consultant Examination and other examinations dealing with vegetation control. At the end of each chapter are a number of study questions. After reading the chapter, the reader should test his/her understanding of the material by working through the study questions. If the reader is uncertain about the answer to any study question, referring back to the text is the preferred method. In addition, abbreviated answers are given in the back of the manual. Those should be used only as a last resort, because they are too brief for a full understanding of the concept. Reviewing the appropriate section in the chapter is preferable. Certain section of the book are taken with permission from "Apply Pesticides Correctly", the Oregon State Department of Agriculture Core Manual, and "Weed Control-Text Supplement" of the Oregon State University Department of Crop and Soil Science.

Table of Contents

1. Weeds
 2. Adjuvants for Herbicide Sprays
 3. Herbicide Formulations
 4. Ten Important Herbicide Families
 5. Factors Influencing Soil-Applied Herbicides
 6. Factors Influencing Soil-Applied Herbicides
 7. Application Equipment
 8. Calibration
 9. The Label
 10. Avoiding Chemical Trespass
 11. Management Aspects of Herbicide Use
 12. Glossary
- Appendix
- Common names and trade names
 - Answer to Study Question
