Objective Seed Science and Technology 2nd Ed

K. Vanangamudi , S. Kavitha & K. Raja

ISBN	: 9789389412604	Book Format	: Book & eBook
E-ISBN	: 9789389412611	Binding	: Paper Back
Language	: English	Edition	: 2
Imprint	: Scientific Publishers	© Year	: 2024
Pages	: 524	Trim Size	: 6.20 X 9.25 X 0.80
Weight	: 594 Gms		
Book Type	: Text Book		

Print Book : **₹575.00**

Individual E Book : **₹618.00**

Institutional E Book : **Price available on request**

Objective Seed Science and Technology is prepared based on the ICAR UG syllabus of Seed Science and Technology. This book is the compilation of Frequently Asked Questions (FAQs) in Seed Science and Technology which will be highly useful in writing competitive examinations like ASRB, NET, JRF, SRF, Ph.D entrance, Bank, UPSC, Agricultural, Horticultural and Seed Certification Officers.

The 2nd revised Edition comprises two sections namely 1. Seed Science and Technology: Principles and Practices, and 2. Advances in Seed Physiology and Biochemistry. The section 1 consists of eight units such as floral and seed biology, seed production including breeding methods, seed processing, seed quality control, seed storage, seed health, seed industry and marketing and protection of plant varieties including DUS.

The section 2 consists of three units namely seed development and maturation, seed dormancy and germination, and seed deterioration.

Each chapter includes Multiple Choice Questions (MCQs), fill in the blanks, true or false, match the following, answer the incorrect statement, arrange in order and differentiate between the following. Abbreviations, National and International journals and books, International STLs, Seed Scientists and their inventions and glossaries are also compiled and presented in this book.

Table of Contents

3.9. Findout the incorrect Statement.

3.10. Arrange in order

3.11. Differentiate the Following

Unit 4 : Seed Quality Control

4.1. Seed Legislation

4.2. Seed Certification.

4.3. Field inspection.

4.4. Genetic Purity.

4.5. Seed Testing

4.6. Quick Viability Test

4.7. Seed Vigour

4.8. Varietal Identification.

4.9. ISTA.

4.10. Match the Following

4.11. Find out the incorrect Statement.

4.12. Arrange in order

4.13. Differentiate the Following

Unit 5 : Seed Storage

5.1. Requirements and Types of Seed Storage.

5.2. Seed Storage Factors.

5.3. Viability Nomograph

5.4. Seed Deterioration.

5.5. Seed Packaging Containers and Seed Treatments

5.6. Storage Structure

5.7. Germplasm Storage

5.8. Cryopreservation

5.9. Seed Store Maintenance.

5.10. Match the Following .

5.11. Find out the incorrect Statement.

5.13. Differentiate the Following

Unit 6 : Seed Health

6.1. Seed Pathology.

Maturation.

1.5. Protein Biosynthesis and Accumulation During Seed

Development and Maturation

1.6. Lipid Biosynthesis During Seed Development and

Maturation.

1.7. Hormone Biosynthesis and Accumulation During Seed

Development .

1.8. Changes in Secondary Metabolites and Toxic

Compound During Seed Development.

1.9. Possible Alteration in Metabolic Pathways During Seed

Development and Maturation .

Unit 2 : Seed Dormancy and Germination

2.1. Seed Dormancy : Types and Classification.

2.2. Role of Hormones on Seed Dormancy .

2.3. Requirements of Germination .

2.4. Imbibition and Enzyme Activation.

2.5. Respiration, Mitochondrial Activity and ATP Synthesis

During Seed Germination .

2.6. Protein and Nucleic Acid Synthesis During Seed

Germination .

2.7. DNA Synthesis and Germination.

2.8. Carbohydrate Metabolism During Germination.

2.9. Breakdown of Lipids During Germination

2.10. initiation of Embryo Growth and Protrusion of Radicle

2.11. Cell Cycle During Seed Germination

Unit 3 : Seed Deterioration

3.1. Ultrastructural Changes During Seed Deterioration .

3.2. Food Reserves Changes During Seed Deterioration

3.3. Enetic Changes During Seed Deterioration.

3.4. Enzyme Activity Changes During Seed Deterioration

3.5. Lipid Peroxidation .

3.6. Detection of Lipid Loss During Seed Deterioration

3.7. Biological Effect of Lipid Peroxidation.
